

HOT-DESKING: EXPRESSION OF INTEREST FORM

Please provide an overview of your company/mission and why locating to the BioData Innovation Centre (BIC) would be valuable to you as well as the Campus. We are looking to check if there is a clear fit with our Campus Gateway criteria. All companies or individuals wishing to hot-desk at the BIC, will need to be able to clear a formal Gateway application. We are looking:

- To check that you/your company is innovating within the genomes or biodata industry.
- To see that you/your company would like to collaborate with other knowledge-based entities on Campus.
- For value alignment. Like us, are you/your company ambitious, collaborative, creative and working to make a positive impact on society?

Please	provide	a n	overview	o f	your	company/n	nission	(e.g.	market,	products
or serv	ices and	vis	sion):							

Why have you chosen the Campus as a location and how will your business benefit from this?

How do you plan to collaborate with other knowledge-based entities here on Campus?
